SALEBARN**STATS**

Make smarter cattle buying and selling decisions with data, not guesswork.

SaleBarnStats is a web-based livestock market intelligence tool built for ranchers and cattle professionals seeking clear, actionable insight into **when** to sell, **where** to sell, **what** to sell, and **how** to maximize returns.

UNIFIED MARKET VIEW

- Interactive auction dashboards
- AI-driven forecasting and scenario modeling
- Multi-variable trend analysis (price, weight, age)
- Cross-market price comparison and normalization

No more wading through long PDF reports. Just easy-to-understand market information for everyday operational decisions.

KEY FEATURES

- Timing and seasonality (**WHEN**)
- Sale barn and trucking comparison (**WHERE**)
- Weight-based price optimization (**WHAT**)
- Contract selling, depreciation, and replacement planning (**HOW**)
- Weather and drought data
- Angus AI Assistant

Legend:
- Excellent
- Good
- No coverage
